

Hello partners,

As many of you are aware, the University of Minnesota Medical School is strictly limiting in-person research with human participants to avoid the spread of COVID-19. Following University policies and good public health practices, Memory Keepers Medical Discovery team staff will continue to work from home until at least June 30, 2020. During this time, we will not be traveling to community research sites. Thank you for your continued patience. Should you need to reach us during this time, please contact us by phone at 218-726-6801 or email at: memorykeepers@d.umn.edu

Stay safe and be well.

With respect,

Memory Keepers Medical Discover Team:

Dr. Neil Henderson, Executive Director, Memory Keepers Medical Discovery Team - Health Equity Professor, Department of Family Medicine & Biobehavioral Health, University of Minnesota Medical School, Duluth

Dr. Kristen Jacklin, Associate Director, Memory Keepers Medical Discovery Team - Health Equity Professor, Department of Family Medicine & Biobehavioral Health, University of Minnesota Medical School, Duluth
